## Personalisation

# Celebrate the life of your loved one

As funerals are a valuable part of the grieving process and give family and friends the chance to celebrate a life lived rather than a life lost - personalisation gives families a chance to add their own special touch to the service that remind them of their loved one as they say their final goodbyes.

For many families a funeral has become a celebration of life and the choices made at the time of arranging a funeral can help to truly celebrate the life of their loved ones.

This ability to personalise is reflected in the choices available when considering bespoke funeral keepsakes, mementos, video tributes, music, portraits or a personalised coffin cover.
